The Society of Electric, Electronic and Energy engineers in Israel

Innovation in Electrical and Energy Engineering Conference

June 15, 2026, Exhibition Grouknds

Sponsorship Prospectus

We are honored to invite you to contribute to the success of the conference Innovation in Electricity and Energy" and thank you in advance for your consideration. Your support and sponsorship of this professional conference is important for the advancement of the innovation industry in the field of electricity and energy in Israel, and it is possible to promote the creation of a professional and business relationship between start-ups and energy companies in the economy.

The Steering Committee of the Conference:
Herzl Friedman (Chair of the Conference), Prof. **Yuval Beck**, **Yariv Gesser,** Dr. **Dan Weinstock, Yaakov (Yasha) Hain, Irit Yaakov, Nimrod Kafri,** Prof. **Simon Litzin, Amos Lasker, Yoni Malachi,** Prof. **Yossi Pinhasi**, Dr. **Gideon Friedman**, **Emil Koifman,** Prof. **Brion Rosen.**

About the Conference:

The "Innovation in Electricity and Energy" conference is the second professional conference organized by the Association of Electrical, Electronics and Energy Engineers, the energy community Energycom, and in cooperation with the Ministry of Energy. We expect that more than 400 entrepreneurs, engineers, scientists and senior officials in the electricity and energy industry will participate in the conference.

The purpose of the conference is to provide a platform for companies, entrepreneurs, academic researchers and developers to unveil new technologies and products and bring them together with engineers and senior officials in the electricity and energy sector in Israel to promote professional and business relationships.

In the conference program, 25 lectures will be presented in 6 plenary sessions and parallel sessions on technological innovations, developments and applications on a wide range of topics related to electrical engineering, energy, and air conditioning, including renewable and storage energies, electric transportation, energy efficiency, cyber defense, and more.

As part of the conference, a professional exhibition will be held in which various companies will present advanced equipment,new products, developments and innovative technologies.
